Secondary White

LOGO VERSIONS

The logo versions of GILDANA always appear in Antique Gold, Rich Black, or White. Logos may only be used on approved brand colors that provide sufficient contrast for clear readability.

The GILDANA Antique Gold version should be used on dark or light brand colors, or on photography with enough contrast — though it is preferred on dark backgrounds. The GILDANA Rich Black version should be used on light brand colors.

The GILDANA White version should be used on dark photography or backgrounds, as long as legibility is maintained.

CLEAR SPACE & MINIMUM SIZING

The clear space defines the minimum area around the GILDANA logo where no other graphic elements are allowed.

The logo must maintain legibility and visual balance at all sizes. For this reason, a minimum size requirement has been established for both print and screen applications. Please adhere to these dimensions when resizing the logo for smaller uses.

The GILDANA clear space is built on the height and width of the letter “G” in GILDANA, defined as (x). A minimum clear space of 1x must be maintained on all sides of the logo to ensure clarity and visual impact.

Never put the logo in black on a dark background

Never use an unapproved color background

Never add a drop shadow to the logo

Never put the logo in any color other than Antique Gold, Rich Black, or white

Never use the logo at an angle

Never use a stretched or compressed logo

INCORRECT USES

The GILDANA logo must always maintain its original form and appearance. Its size and proportions should remain consistent, and it must never be stretched, skewed, rotated, or displayed in unapproved colors. Do not apply any effects such as shadows, outlines, gradients, or patterns. Please refer to the examples of common incorrect usages on this page to ensure the logo is always applied correctly and consistently.

PRIMARY COLOUR PALETTE

The GILDANA primary colour palette defines the essence of the brand’s visual identity. It captures a sense of refined luxury and timeless confidence, combining warmth, depth, and elegant balance. The Antique Gold, Rich Black, and Beige tones form the foundation of GILDANA’s visual language. These colours should be used consistently across all brand communications to maintain a distinctive and recognizable presence. Each shade embodies a core aspect of GILDANA’s character —

Antique Gold reflects prestige, heritage, and enduring excellence, Rich Black conveys strength, authority, and sophistication, and Beige adds balance, warmth, and modern refinement. Together, they create the signature harmony that defines the GILDANA aesthetic — elegant, confident, and eternal.

Brown

PANTONE 4625 C

#FFFFFF
R.G.B 255 , 255 , 255
C.M.Y.K 0 , 0 , 0 , 0

SECONDARY COLOUR PALETTE

The GILDANA secondary colour palette complements the primary tones, adding depth, softness, and versatility to the brand’s visual identity. It enhances the overall aesthetic while ensuring harmony and balance across every application.

The Brown, Ivory, and White tones serve as elegant supporting shades — subtle yet essential in expressing GILDANA’s timeless sophistication.

Each colour carries a distinct role within the brand’s design system:

Brown (PANTONE 4625 C) brings depth, stability, and warmth, grounding the palette

with a sense of confidence.

Ivory (PANTONE 468 C) offers a soft, classic neutral, providing calm contrast and refined elegance.

White (PANTONE 0601-11 TCX) represents purity, clarity, and balance, allowing other tones to breathe while maintaining a clean, luxurious aesthetic.

Together, these secondary shades enrich the brand experience, ensuring GILDANA maintains its prestige and visual harmony across all touchpoints.

PRIMARY TYPEFACE

Our new primary font family is **Bebas Kai**.

A refined and confident typeface that embodies strength, clarity, and modern sophistication.

With its clean lines and balanced proportions, Bebas Kai reflects the precision and elegance at the core of the GILDANA identity.

It is best used for headlines, titles, and key statements, where its bold presence reinforces the brand's authority and timeless aesthetic.

When paired with our secondary font, it creates a harmonious balance between bold expression and understated refinement.

SECONDARY TYPEFACE

Our secondary font family is **Helvetica Regular**.

A timeless typeface known for its clarity, balance, and modern sophistication. Its clean geometry and versatile structure make it ideal for body text, subheadings, and supporting details, ensuring readability and consistency across all applications.

When paired with Bebas Kai, Helvetica Neue Regular introduces a sense of refined simplicity that complements the bold character of our primary font. Together, they create a harmonious visual hierarchy that defines GILDANA's elegant and contemporary typographic identity.

ARABIC TYPEFACE

Our new Arabic font family is **Zain Regular**.

A contemporary typeface that blends heritage with modern refinement. Its elegant letterforms and balanced proportions mirror the sophistication of the GILDANA brand, ensuring harmony between Arabic and Latin typography.

Zain Regular is designed for clarity, legibility, and aesthetic precision, making it ideal for both digital and print applications.

When used alongside Bebas Kai and Helvetica Neue, it completes a unified typographic system that reflects GILDANA's global yet culturally rooted identity.

TYPOGRAPHY HIERARCHY EN

Size, scale, and placement define how typography communicates tone and importance. While there is no fixed formula, maintaining clear visual contrast between type sizes is essential for balance and readability.

To ensure a strong visual hierarchy, each level of text should scale proportionally: the headline commands attention, the subhead supports it, and the body copy delivers clarity and detail.

Headline – 4x

Approximately four times the size of the body copy, establishing strong presence and visual dominance.

Subhead – 2x

Twice the size of the body copy, providing structure and emphasis while complementing the headline.

Body Copy – 1x

The standard base size, ensuring legibility and comfort across all print and digital applications.

This hierarchy ensures that every piece of GILDANA communication remains elegant, consistent, and effortlessly readable.

TYPOGRAPHY HIERARCHY AR

Arabic typography follows the same principles of scale, clarity, and visual harmony established in the English system.

Maintaining proportion and rhythm across the Arabic type ensures consistency within GILDANA's bilingual identity.

To preserve readability and aesthetic balance, each level of Arabic typography should maintain clear distinction in size and weight:

the headline leads with presence and confidence, the subhead provides structure and emphasis, and the body text delivers clarity and flow.

Headline – 4x

Approximately four times the size of the body text, designed to command attention

with elegance.

Subhead – 2x

Twice the size of the body text, providing visual hierarchy and supporting the main headline.

Body Text – 1x

The standard base size for Arabic content, ensuring comfortable readability across print and digital formats.

This proportional system ensures that the Zain Regular typeface reflects GILDANA's refined and balanced visual language in both Arabic and English.

PATTERN

04

Element I — The Core Emblem

Element II — The Bloom Motif

PATTERN CREATION

The GILDANA pattern is built from the very essence of our identity — the letter “G.” Starting with this foundational element, we constructed a symmetrical composition by arranging four “G” forms side by side and top to bottom, creating our first shape — a balanced and structured emblem that reflects precision and unity.

When these forms are grouped together, they naturally generate a floral-inspired shape at their intersection — an elegant secondary element derived from the compound path created by the four Gs.

Together, these two pattern elements — the geometric form and the floral form — embody GILDANA’s dual spirit: strength and sophistication, structure and beauty. They serve as a visual metaphor for how we craft harmony from detail, transforming design into timeless elegance.

LOGO PROPORTION GUIDE

When another logo appears alongside the GILDANA logo, its size must remain proportionate to maintain visual harmony and balance.

The partnering logo should always fit within the height of the letter “G” in the GILDANA wordmark — ensuring that GILDANA retains its clear presence and hierarchy in all co-branded applications.

This proportional rule preserves consistency, legibility, and visual prestige across all collaborative brand placements.

The background is a dark navy blue with a fine, woven texture. In the top right corner, there is a large, curved, golden-yellow shape that resembles a stylized 'G' or a piece of fabric. Several small, bright, star-like light points are scattered across the dark background. The word 'GILDANA' is centered in a bold, golden-yellow, sans-serif font.
